Washington, DC 20515

Dear Representatives Schakowsky, Carter, Blumenauer, and Kelly:

On behalf of millions of cancer patients, survivors and their families, Greet The Day commends you for your leadership in introducing H.R. 1948, the Lymphedema Treatment Act.

The Lymphedema Treatment Act would require Medicare to cover all necessary medical supplies appropriate for the treatment of lymphedema for beneficiaries. The Medicare program currently does not cover the critically necessary compression supplies used in the daily treatment of lymphedema. Patient access to physician prescribed compression supplies can prevent recurring infections and eventual disability in lymphedema patients. Currently, compression supplies used for the treatment of lymphedema patients are not classified under any existing Medicare benefits category.

Lymphedema affects millions of Americans nationwide, and there is currently no known cure. Patient access to medical supplies that help treat lymphedema is imperative, and important for patient quality of life. Patients who have undergone surgery or radiation therapy for cancer, namely breast cancer, may be at a high risk of developing lymphedema. Also, surgical procedures treating breast cancer often require the removal of lymph nodes which puts breast cancer survivors at an even higher risk.

The Lymphedema Treatment Act is so important, and we thank you again for your leadership on this important issue.

Sincerely,

Johnette du Rand
Program Director
